Junior React Developer

I am a React developer with 2 years of experience, skilled at creating modern, responsive and user-friendly interfaces. Leveraging React, Redux, Context API, and related technologies, I deliver projects with enhanced performance and exceptional user experiences.

My proficiency extends to JavaScript, HTML, CSS, with experience in integrating popular libraries like React Router, Axios, React Query, and Material UI. Also, I have experience with APIs and backend technologies, optimizing system efficiency through seamless front-end to server communication.

I prioritize clean, maintainable, and efficient code, reducing complexity and bolstering system stability. Therefore, I am confident in my ability to contribute significantly as a skilled React developer. Proven track record, high-quality code, and continuous improvement make me an invaluable asset to any project.

WORK EXPERIENCE

Alems C Engineering Contractors • Abuja, Nigeria • 01/2022 – 07/2023

React Developer

- Developed React-based web application resulting in 30% increase in user engagement over 3 months.
- Transformed a legacy web application into a modern, responsive, and user-friendly platform using React and related technologies, resulting in increase in user engagement and a decrease in bounce rate
- Collaborated with cross-functional teams to understand project requirements and translated them into technical solutions, ensuring seamless project delivery and exceeding client expectations.
- Implemented best practices and coding standards to write clean, maintainable, and efficient code, resulting in a 30% reduction in bug reports and improved team productivity.
- Collaborated with UX/UI designers to create an intuitive and visually appealing user interface, resulting in increase in user retention and positive feedback from end-users.
- Optimized application performance and improved user experience by implementing new features and functionality, resulting in a 20% increase in user satisfaction and positive feedback from stakeholders.

United States Latino American Chamber of Commerce • Abuja, Nigeria • 01/2022 – 05/2022

Non-Governmental Organization

Front End Developer Intern

- Developed responsive UI/UX static interfaces with HTML and CSS
- Debugged the entire application using Chrome Development tools
- Managed and constantly updating the website with new information
- Actively participating in code reviews and debugging sessions, identifying and fixing HTML and CSS issues to enhance the stability and functionality of the website.
- Contributing to the optimization of website performance by optimizing code, reducing file sizes, and improving loading times

- Actively participating in team meetings and brainstorming sessions, offering creative ideas and solutions to improve the design and functionality of web pages
